

## Our Mission

MOSSBOSS, LLC is a small, family owned business in Cheshire, Connecticut, U.S.A. Our goal is to provide an affordable golf training aid for everyone who loves the game as we do.

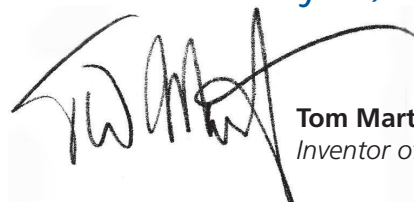

The **CHPSTX** is MB's Wrist Fault Indicator. It is simple to use and an effective tool to promote a firm, flat lead arm position during the short game stroke. This

develops clean contact with the ball resulting in greater control of distance and accuracy. When one breaks their wrist on contact, one can incur flips, sculls, skies, and some other results we can't mention here.

Mostly we hear of "Big Drivers" and "Great Putters." Rarely do we hear of "The Great Iron Workers" of the game. You can get it out there, but you can't get it on, the **CHPSTX** will help you get up so you can get down!

*Hit 'em straight...  
and not too often,*

Tom Martinez  
Inventor of CHPSTX

## What CHPSTX users are saying...

*This is one of the finest short game training aids I've come across in my years of teaching. One of the biggest mistakes I see made every day is breaking the wrists at or before impact while chipping. The Wrist Fault Indicator provides immediate feedback when the wrists break down. Using this tool provides every golfer with proper chipping technique to take strokes off your game. It is extremely easy to use, and again, allows for immediate feedback. I will recommend this training aid to all of my students."*

# Get on the Stick!

The **CHPSTX** is a 19" long, hollow polymer rod with an easy to grip handle for pressing onto the grip of your wedge. When taking your normal grip, if you indeed flip, snap, break or otherwise turn your wrist when you swing, the **CHPSTX** will lightly tap you on your lead arm's side between your belt and armpit as a *wrist fault indicator*.

Like most things, we at MB stick with the basics. We want everyone to do well and we're proud to offer you a product that will help your golf game. Golf is not as easy as it looks: practice, practice, then practice again. The great players work hard, and they play and look that way. Remember: you can be "Boss of the Moss"... even if it's only on the living room rug!

## How To Use CHPSTX

1. Press CHPSTX onto grip
  2. Use short strokes up to 1/2
- NOT FOR FULL SWINGS!

Men's Standard & Medium Grip – **RED**

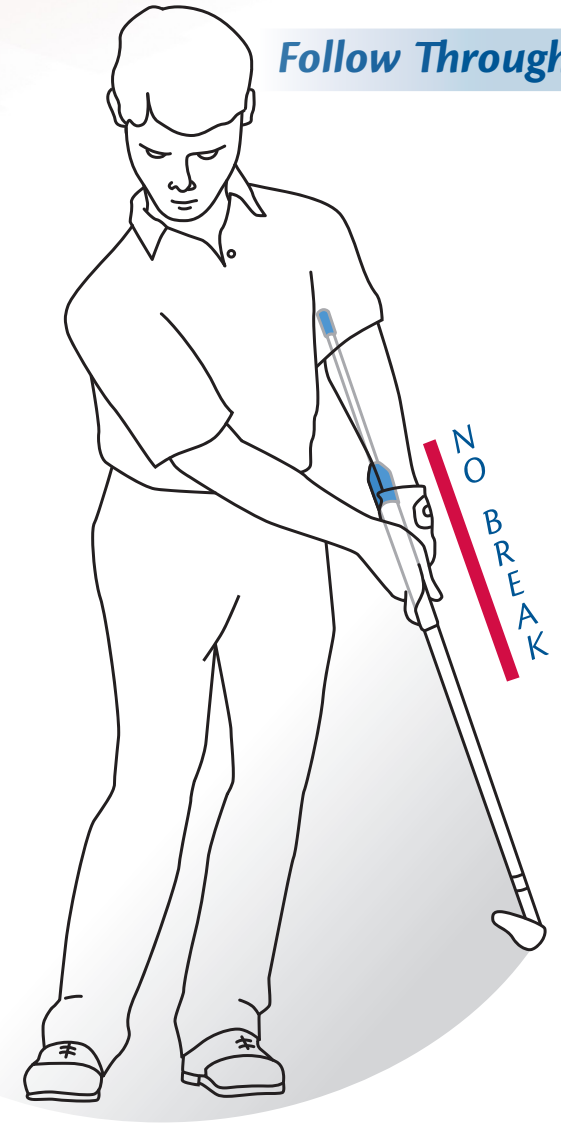

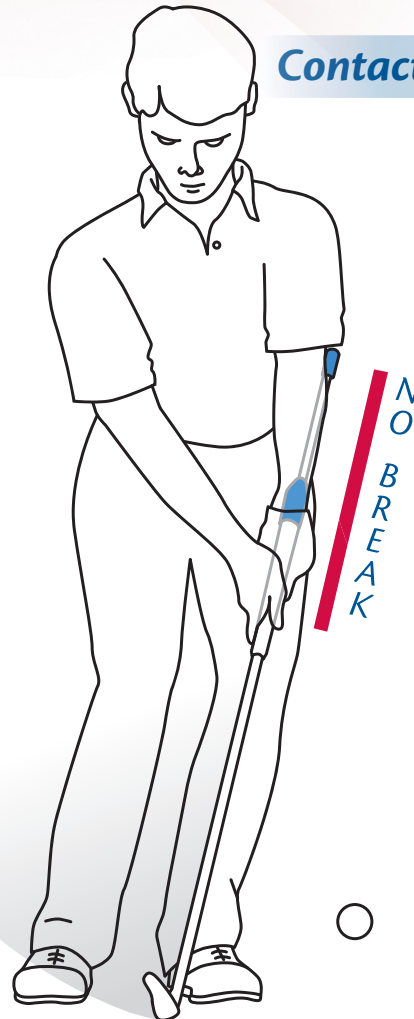

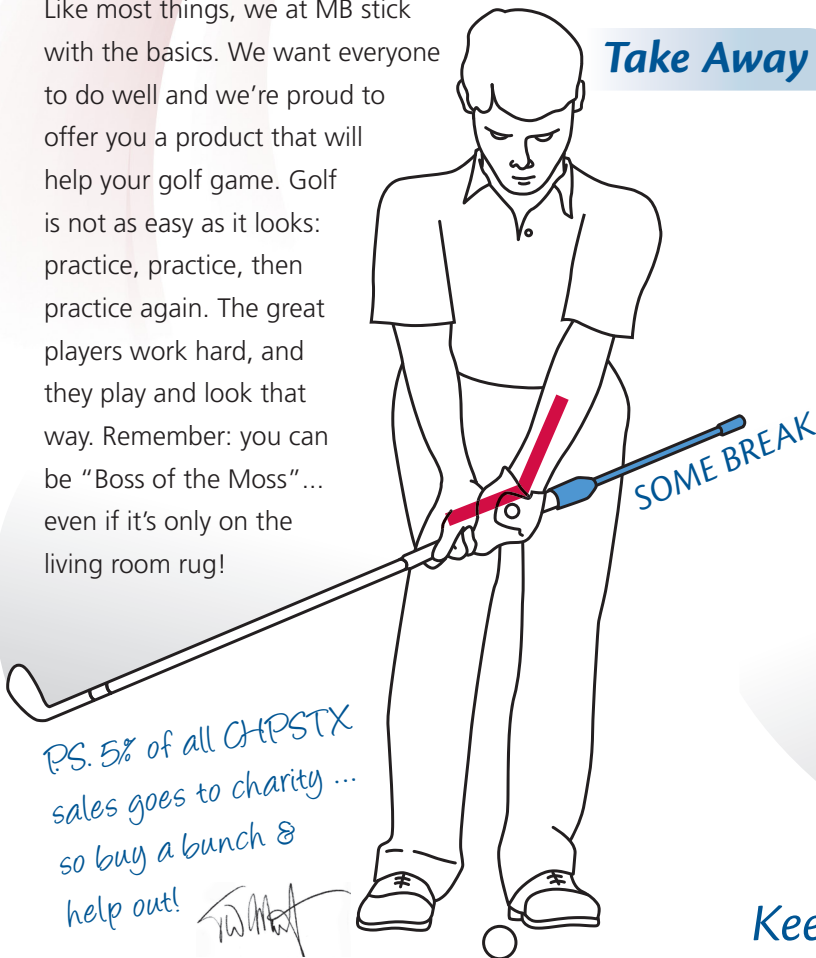

Women's & Junior – **BLUE**

All CHPSTX are Red, White & Blue
